EDUCATION

Shanghai Jiao Tong University <i>Upcoming PhD student in Computer Science, School of Artificial Intelligence</i>	Starting in Fall 2026
South China University of Technology <i>BSc in Artificial Intelligence, School of Future Technology</i>	2022 – 2026

RESEARCH INTERESTS

3D Computer Vision
Robust, efficient, adaptive and physically plausible 3D reconstruction and generation

Generative World Model
World understanding, disambiguation, and prediction, with geometry and physics-based protocol

Multimodal Intelligence and Generalized Intelligence
Multimodal perception for accurate and robust action; transferrable cross-modality intelligent system

PROFESSIONAL EXPERIENCE

Shanghai Jiao Tong University <i>Research Intern</i> Advised by Prof. Yuanbo Xiangli	March 2026 – Present
Shanghai Jiao Tong University <i>Research Intern (Remote)</i> Advised by Prof. Yuanbo Xiangli	September 2025 – February 2026
Westlake University <i>Research Intern</i> Supervised by Prof. Huan Wang	August 2024 – May 2025
South China University of Technology <i>Research Intern</i> Supervised by Prof. Qi Liu	September 2023 – August 2024

HONORS AND AWARDS

Excellent Graduate Thesis , <i>South China University of Technology</i>	June 2026
National Scholarship , <i>Ministry of Education of the People’s Republic of China</i>	October 2025
The Second Prize Scholarship , <i>South China University of Technology</i>	September 2025
National Scholarship , <i>Ministry of Education of the People’s Republic of China</i>	October 2024
The First Prize Scholarship , <i>South China University of Technology</i>	September 2024
National Second Prize of MathorCup Mathematical Application Challenge , <i>China Society of Optimization, Overall Planning, and Economic Mathematics</i>	April 2024
Honorable Mention of MCM/ICM , <i>Consortium for Mathematics and Its Applications (COMAP)</i>	February 2024
First Place in the Huawei ICT Competition , <i>Guangdong Province, Huawei Technologies Co., Ltd.</i>	November 2023
First Prize in Guangdong Province for the National Undergraduate Mathematics Competition , <i>Chinese Mathematical Society</i>	November 2023
